

Mapathon Power Utility Areas Workflow and Instructions

It all starts on OpenEI: <http://openei.org>

First you'll need an OpenEI account:

Then head over to the main mapathon page:

➡ <http://en.openei.org/apps/wh-mapathon-2015/>

Pick a state on the map, or use the links below to see companies that need info

Find a company to work on and click its name to open it in a new window. Be sure to coordinate with your peers to you're not working on the same one at the same time.

Click  **Edit with form** *(you only see this if logged in)*

Fill out the fields highlighted green:

Number of Employees	Phone Number
<input type="text"/>	<input type="text"/>

Add some text for the edit history. Something like "Added outage information".

Edit history:

☐ This is a minor edit ☐ Watch this page

➡ **Click save.** Close the tab. Refresh the company list to see your changes. Do it again!

At any time you can head back to the map and Refresh it to see our overall progress.
